

WE NEED YOU!

£3000 That's how much the club could raise with all your unwanted scrap metal over the next 12 months.

Hello I'm Lewis (Ethan Kingdoms dad, Age group 2) and I'm wanting to raise much needed funds for the club by converting your old scrap items into **CASH**.

The Club has been offered £150 per TON for scrap steel & £450 per TON for scrap Aluminium at Humberside Reclamation Ltd. I don't mind collecting larger items from your home or alternatively you can bring them to Friday night training sessions at Ennerdale for me to collect from there.

The following items are needed to help the fund:

Push Bikes, Scooters, Go-karts, BBQ's, Lawnmowers, Garden Furniture, Strimmers, Trampolines, Metal poles, Radiators, Boilers, Pipe work, Iron, Car wheels, Car Parts, Cookers, Microwaves, Washing Machines, Fires, Irons & Ironing boards, Computers, Laptops, Basically any metal items large or small working or non-working as they will all be scrapped and not used.

NO FRIDGES OR FREEZERS

Remember: Aluminium, Steel, Iron, Copper & Brass.

Please feel free to email me Lewis@lewis41.karoo.co.uk or send me a txt on 07917448754 with any questions or comments.

Also collecting Aluminium drinks cans Eg: Beer, pepsicola etc, each can is worth 1.25p. Doesn't sound a lot but with approx. 150 members each having parents, grandparents and neighbours that could collect for them, it could soon add up to a heap load of cash for the club.

1 can of coke weighs 28g 1.25p

35,715 cans = 1 TON = £450

These also can be handed in to me on Fridays or see your squad leaders for details.

Our children and coaches work and train hard, so let us do the same and make them some money.

Many thanks Lewis.
